

# Webinar Series

## Constructing a Digital Environment

**Theme: Data for Decision Making**

**Title: “Lessons from applying decision science in the public health sector”**

**Speaker: Professor Karl Claxton**

**Time: Thursday 14th January 15:00 GMT**

**Registration and further details:**

---

Karl Claxton is a Professor in the Department of Economics and Related Studies at the University of York. He is also a Senior Research Fellow in the Centre for Health Economics, University of York. He was a Harkness Fellow at the Harvard School of Public Health and held an adjunct appointment at Harvard as an Assistant Professor of Health and Decision Sciences. His research interests encompass the economic evaluation of health care technologies. He is a member of the National Decision Support Unit and co-editor of the Journal of Health Economics.

---

The **NERC Constructing a Digital Environment (CDE) programme** is running a series of online Webinars, aiming to develop the digitally enabled environment, benefitting scientists, policymakers, businesses, communities and individuals. The webinar series seeks to showcase the latest expertise in digital technology and methodologies applied to the environment, illustrating ‘the arc’ from data gathering, its management and curation, analysis and presentation to decision makers, covering topics such as distributed networks of sensors, new sensor technology, novel forms of data informatics (e.g. data lakes, data cubes), data analytics, uncertainty, data labs, apps, skins and tools to support decision makers across the society.
