Webinar Series

Constructing a Digital Environment

Theme: Law and Ethics in the Digital Environment

Title: “Data protection, privacy and IP – what do you need to think about in the digital environment?”

Speaker: Martin Sloan

Time: Thursday 8th April 15:00 GMT

Registration and further details: https://ukri.zoom.us/webinar/register/WN_EVrZVMQOQP-WLMtax9kaPA

Martin Sloan is a partner in the IP, Tech and Data team at Brodies LLP. Martin is recognised by Chambers and Partners as a leading data lawyer, and advises clients across a number of sectors on projects involving the innovative use of data. In relation to data protection, Martin advises on general data protection compliance, data protection impact assessments, data processing and data sharing arrangements, cyber risk and data breaches. Martin also advises on data licensing and the ownership and exploitation of intellectual property rights in datasets and derived data, including the use of data licensed under the OGL and NCGL. Martin is a member of the Advisory Board for the Society for Computers and the Law, and the Policy Steering Group for ScotlandIS, the trade association for digital technology in Scotland, and is a Law Society of Scotland certified specialist in cyber security.

The NERC Constructing a Digital Environment (CDE) programme is running a series of online webinars, aiming to develop the digitally enabled environment, benefitting scientists, policymakers, businesses, communities and individuals. The second segment of the webinar series will focus on ‘Law and Ethics in the Digital Environment’. Drawing on wider experiences and expertise, internationally renowned speakers will provide insights and perspectives on a range of legal and ethical issues which can be relevant to the digital environment. This will include challenges and potential solutions to issues relating to cybersecurity, intellectual property, privacy, human rights, competition and digital ethics.
