

# Constructing a Digital Environment

Hackathon - Bridging data sciences and the public with art

 **10-12 July 2022**       **University of Birmingham**

We're calling for environmental researchers data and visualisation specialists to join a Natural Environment Research Council (NERC, part of UK Research and Innovation) – funded Hackathon in July 2022 that will run in parallel with the [Constructing a Digital Environment Conference](#) #CDE22.

It will take place from Sunday 10th July to Tuesday 12th July at the University of Birmingham but remote participation is also encouraged. Entrants will work together or individually to draw on [digital data from NERC EDS, Copernicus and NASA](#) to turn scientific data into art creations, in any format, to enhance the communications between scientists and the public.

Scan the QR code below for further details, calls for papers and registration, or visit [digitaleenvironment.org/cde-22-hackathon/](https://digitaleenvironment.org/cde-22-hackathon/)
