

# Constructing a Digital Environment

## Conference and Exhibition

 **11-12 July 2022**       **University of Birmingham**

Learn how we're using technology to advance our understanding of the environment at our conference and exhibition. Join us for an exciting programme of talks, keynotes, masterclasses and a Hackathon running in parallel!

Continuing from our popular webinar programme, the themes are:

Analytical tools and data management for environmental science

Sensing the environment

Data digitisation, rescue, and re-purposing for environmental decision making

Law and ethics in the Digital Environment

Scan the QR code below for further details, calls for papers and registration, or visit [digitaleenvironment.org/conference-2022](https://digitaleenvironment.org/conference-2022)
